

Fine. You win.

The code you need is:

9 9 2 0 .2 2 9 9 8 9 2 1 2 .3 3 3

The rest of it: <http://tinyurl.com/cocdghpl>

I want out. Until you fix what you started, this is my last drop.

And I keep telling you: This is a monumentally stupid dead drop. If you keep this up, the law of averages is going to catch up with you and some poor bastard will just happen to pick up the book after the drop is made and before you retrieve it. What will happen then? I don't want to be part of it.

At least pick a more obscure section in the bookstore.

By the way, despite your "best assurances" and the team you say you sent, I think it's still following me.
